Question #11 • Text Response • 18 responses (64%)
How can this TA improve?

Results:

- I have no idea what's happening with the grading system. The HW assignments are being graded out of 1 point and nothing seems to be inputted until the end of the session. Pretty much all the Econ classes us this system of keeping the grade N/A until the end of the quarter, and I would love to see this change because I have no idea what my grade looks like until then.
- If the TA notices a student submissions are consistently doing poor, it would be great if they could explain when grading why they are receiving the grade they are getting otherwise it doesn't give a chance for improvement and students confused on how they can do better next assignment
- If the explanation of the HW could be more understandable
- set an attendance to force us to join the discussion
- Provide examples that are similar to tests
- I hope that group work can be added.
- Homework's grading time is too long
- Not sure, no discussion section
- change homework grade ways.
- Overall, this TA is good.
- Be more considerate
- Nothing to note
- So far so good.
